

Privacy Policy

This document applies to apps developed by Perfect Apps. We've tried to keep text simple, so we hope you will take a time to read it carefully.

Personal information

We made apps with your privacy in mind, so we do not collect personally identifiable information about you. In other words, we do not collect information such as your name, address, phone number, email address or precise geographic location.

Usage analytics

We would like to make our product more useful for you, so we added Google Analytics to our apps. It collects user behavior information in an anonymous form and transmits it to Google's servers. That means only usage data is collected, no personally identifiable information. To learn more check out <https://www.google.com/policies/privacy/>

Advertising

We use ads to keep apps free for you. All ads in our Apps are served by Google's AdMob network. AdMob may use and collect anonymous data about your interests to customize advertising in our App and in other sites and apps. To do that AdMob uses unique user-resettable Advertising ID, provided by Google Play services. Interest and location data may be linked to your device, but is not linked to your identity. To learn more about AdMob privacy policies and opt-out choices check out <https://www.google.com/policies/privacy/>

Changes

We will post any privacy policy changes on this page and, if you have any questions or concerns about our privacy policies, drop us a mail at perfectappz.android@gmail.com
